3) How to participate

Please indicate all data about concerned participants for our registration to this presentation, please fulfill the information on www.finereader.pl/konferencje

We will create for each participant individual account and sent to each of them info letter about presentation (URL for participating, time schedule, account..).

4) Technical moments

- Web presentation will be done through web conference technology – Adobe Connect Pro. For participating in presentation you don't have to install any program preliminary (except probably in some cases ActiveX components, but this will be done during connection). You just need to have any Internet Browser and internet access on the PC.

- Additional equipment that are needed:
 - headphones (obligatory)

 - microphone (optional)
